## **DETAILED ACTION**

This application is in condition for allowance except for the following formal matters:

### **IN THE DRAWING:**

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character “410 on Figure 7” has been used to designate both the latch and latch output. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled “Replacement Sheet” in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner; the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
